Chief Executive Officer

Welcome Letter from the Founder & CEO

IWC Group Inc.

San Antonio, Texas

Dear Clients and Partners,

Welcome to IWC Group Inc. Your trusted ally in international trade and customs solutions.

At IWC, our mission is simple: to make global commerce seamless, secure, and efficient. From customs brokerage to logistics coordination, we deliver expert, personalized support to help your business cross borders with confidence.

We pride ourselves on integrity, responsiveness, and building relationships that last. Our dedicated team is here to navigate complexity, reduce risk, and unlock opportunities for growth.

Thank you for choosing IWC. We look forward to move together.

Warm regards,

Marco Aparicio

Founder & CEO

What We Believe

A. Our Purpose

IWC Group Inc. is rooted in 15 years of industry experience and is driven by core values that shape its operations and interactions. These values include:

- **Excellence**
- **Reliability**
- **Competitiveness**
- **Professionalism**
- **Integrity**
- **Community**
- **Building Trust** (Go the extra mile, Got your back)
- **Service Culture** (The customer is always right)
- **Passion** (Committed in heart and mind)
- **Team Work** (It can only be done together)

B. Our Commitment

The company also upholds specific commitments in its operations:

- **Trust:** They work with integrity to build customer confidence by listening to needs and building tailored solutions, guaranteeing on-time deliveries.
- **Quality:** They supply high-quality fuels produced in the Gulf of Texas by leading manufacturers, maintaining the highest safety standards in shipping and handling.
- **Prices:** They strive to offer competitive pricing with quality products and time-saving services to increase profitability, with price management programs to help clients control fuel costs and achieve higher revenue.
- **Customer Service:** They are focused on providing exceptional customer service, aiming to exceed expectations 24/7/365, with the goal of seeing clients excel.

Our Core Values

Core Principles

Our values drive results that matter to the world

Our Mission and Vision

- Our Mission: To earn lasting trust through transparency, operational excellence, and superior customer service. We are committed to offering the best tailored solutions to our customers' unique needs, rapidly responding to market trends, and achieving operational excellence every day.
- Our Vision: To become a global leader while fostering long-term customer loyalty worldwide. We aspire to be a consolidated market leader with an active presence in strategic locations, governing every level of the supply chain

through vertical integration. This allows us to gain and retain market shares through a commitment to service, efficiency, innovation, and accessibility.

Our Key Commitments

We operate with unwavering dedication to:

- Trust: We work with integrity to build customer confidence by listening to needs and building tailor-made solutions with our unique infrastructure network and assets, guaranteeing on-time deliveries.
- Quality: We supply some of the highest quality fuels produced in the Gulf of Texas by leading manufacturers, while maintaining the highest safety standards in our shipping and handling procedures.
- Pricing: We strive to offer the most competitive pricing with quality products and time-saving services to increase your chances for better profitability. Our price management programs enable clients

to achieve higher revenue by controlling fuel costs.

- Customer Service: We are focused on providing exceptional customer service, exceeding expectations 24/7/365. We consider having the best service standards an obligation, as seeing our clients prosper is one of our main objectives.

IWC Group Inc. stands out by revitalizing the energy sector with cleaner energy and sustainable initiatives, leveraging an integrated network of shipping, storage, and logistics that eliminates the barriers of distance. While electronic communication is efficient, we value a more personalized approach to building mutually rewarding relationships with our partners.

We have a subsidiary office in Mexico City.

Serves markets in Sonora, Chihuahua, Coahuila, N. Laredo,

San Luis Potosi, Queretaro, Tula, Monterrey, and Veracruz.

IWC's rail fleet covers extensive territory in North America.

• Europe (Old Continent):

We have a subsidiary in Spain.

Our "Fueling the Globe" initiative includes the Old Continent through a network of strategic partnerships and operational locations.

Spain is also listed as a market they serve.

• Global Presence:

IWC gains a worldwide presence with active branches in the USA, Canada, Chile, Guatemala, Spain, Mexico, and China.

Our vision is to become a global leader while fostering long-term customer loyalty worldwide, with an active presence in strategic locations.

We aim to be a "solid player in the energy connectivity and trade worldwide"

Industry Overview

Business Landscape:

Connecting Continents, Delivering Excellence, Driving Profitability

IWC Group Inc. Product	Projected Market Demand Growth Percentage (CAGR)
EN590 (Ultra-low sulfur diesel)	3.50%
J1 (Premium aviation turbine fuel)	9.7%
Diesel D6 (Residual fuel oil)	3.50%
LNG (Liquefied natural gas)	6.86%
GLP (Propane)	3.50%

IWC Group Inc. operates in a dynamic and highly competitive global energy and fuel market, specializing in the trading, marketing, and sale of petroleum products. Their business model is built upon a robust and integrated infrastructure*encompassing shipping, storage, and logistics.

Core Activities and Product Offerings:

Primary Focus: IWC Group Inc. specializes in the import and distribution of premium fuels and energy products. **Key Products include:**

EN590: Ultra-low sulfur diesel, meeting European standards.

J1: Premium aviation turbine fuel for jet aircraft.

Diesel D6: High-density residual fuel oil for industrial and marine use.

Gas GLP (Propane): Versatile liquefied petroleum gas.

LNG (Liquefied Natural Gas): A clean transport alternative.

We can also source a wide variety of other fuel and energy products to meet specific client needs.

Integrated Services: The company offers a comprehensive suite of services, including:

Product Sourcing & Supply.

Storage Solutions.

Consulting.

Logistics: Railroad, Marine, and Trucking Logistics.

Fuel Pricing Management Programs to

control costs and increase profitability.

Regional Presence and Global Footprint: IWC Group Inc. boasts a broad and strategic geographical distribution, aiming to become a global leader:

The Americas (North, Central, and South America):

IWC is a leading importer and distributor of fuel and energy products across the Americas.

Our network spans multiple countries, including the US, Mexico (MX), Guatemala (GT), El Salvador (SV), Honduras (HN), and Ecuador (EC).

United States:

Headquartered in San Antonio, Texas.

Serves markets such as El Paso, Brownsville, Harlingen, Dallas, Austin, San Antonio, Arizona, Louisiana, Corpus Christi, and Laredo.

Mexico:

Maintains a subsidiary office in Mexico City.

Serves markets including Sonora, Chihuahua, Coahuila, N. Laredo, San Luis Potosi, Queretaro, Tula, Monterrey, and Veracruz.

The rail fleet covers extensive territory in North America.

Europe (The Old Continent):

A subsidiary in Spain (Madrid). Spain is also listed as a market we serve.

They extend fueling solutions to the "Old Continent" through a network of strategic partnerships and operational locations.

Wider Global Presence:

IWC achieves a worldwide presence with active branches in the USA, Canada, Chile, Guatemala, Spain, Mexico, and China.

Our vision is to be a "solid player in the energy connectivity and trade worldwide".

Operational Model and Logistics Infrastructure:

The company leverages an intermodal transport network that includes rail, marine, and truck transportation to ensure undistruptive deliveries across distances.

Operates with a fleet of over 700 railcars*and has partnerships with key railroads.

Competitive Advantages and Differentiation: **Trust and Reliability:** IWC stands out as a trustworthy and reliable energy supplier. We aim to earn lasting trust through transparency and operational excellence.

Exceptional Customer Service: Committed to providing exceptional customer service on a 24/7/365 basis, striving to exceed customer expectations. We opt for a more personalized approach to build mutually rewarding relationships.

Exploring Energy Networks

Resource Flow

IWC Group Inc. (IWC) possesses an extensive and consolidated energy network, spanning from logistics and infrastructure to strategic alliances, aimed at facilitating the trade, marketing, and sale of petroleum and energy products.

Always growing:

3 offices

In 3 Countries

6 Countries

serving in America

15 years

Experience

Across every line and link,
we power progress with
purpose.

IWC Group Inc. (IWC) possesses an extensive and consolidated energy network, spanning from logistics and infrastructure to strategic alliances, aimed at facilitating the trade, marketing, and sale of petroleum and energy products.

Integrated Infrastructure:

IWC operates through an integrated network of maritime shipping, storage, and logistics infrastructure. This includes a platform designed for the transportation of refined fuels, chemicals, and lubricants by sea, rail, and road. The company utilizes a network of terminals and refineries that allows it to trade millions of barrels of crude oil and its derivatives annually. Our vision is to dominate every level of the supply chain through vertical integration.

Modes of Transport:

IWC stands out for its intermodal transport network, which ensures uninterrupted

deliveries.

We offer customized logistics solutions that include deliveries by rail, truck, and sea, incorporating a multimodal transportation approach in their supply chains.

Rail: We have a fleet of more than 700 railcars and collaborate with key railroads to cover an extensive territory in North America.

Trucks: We work with highly reliable and growing transportation companies, in addition to having their own rapidly growing fleet with trained Hazmat drivers.

Marine: We utilize an assortment of in-land barges always on charter to transport fuels from refinery shore tanks into their storage tanks, to then transload them into the mode of transportation required to reach the final consumer and final destination.

Strategic Alliances and Partnerships:

We collaborate with leading financial institutions to ensure seamless and secure transactions for their global partners.

We are part of a network of strategic partnerships and operational locations that allows them to be a solid player in global energy connectivity and trade.

We are committed to building trust through their unique infrastructure network and assets, guaranteeing on-time deliveries.

Additional Services:

In addition to transport and supply, they offer value-added services in the supply chain, such as fuel price management programs to help clients control costs and increase profitability.

Other services include: tank and equipment loan programs, automated tank monitoring, onsite fuel management systems, fuel and oil testing, fleet fueling, industrial maintenance, environmental cleaning, and emergency response teams.

In summary, IWC Group Inc.'s energy network is characterized by our comprehensive logistical capabilities and multimodal transport, our global presence across the Americas and Europe, and our strategic alliances, which enable it to offer high-quality and reliable fuel and energy supply solutions.

OUR WORK

Our primary goal is to deliver high-quality products and services and to bring fueling solutions where there is opportunity.

At IWC Group Inc., our core mission is to become your most trusted energy partner—grounded in a legacy of excellence, unwavering integrity, and operational precision.

Operational Objectives & Efficiency.

Our operations are strategically designed to meet your evolving needs with speed and accuracy. By leveraging our vertically integrated infrastructure—spanning storage facilities, rail logistics, fueling depots, and a global refueling network—we ensure seamless supply chain coordination. Whether you require expedited deliveries, complex routing, or flexible scheduling, our operational footprint empowers us to deliver tailored solutions that exceed expectations.

We are committed to excellence.

Seamless Supply Execution, powered by real-time tracking and proactive coordination. Future-Focused Planning, with scalable systems geared for growth in demand and shifting energy trends.

Process Optimization, continuously refining protocols to enhance safety, reliability, and delivery speed.

Building Trust Through Transparency.

Trust is not just earned—it is demonstrated. At IWC Group Inc., transparency is embedded in every engagement. Clear, Competitive Pricing: You receive accurate, market-responsive pricing models that reflect real-time conditions. Ongoing Communication: From initial quote to final delivery, our dedicated team keeps you informed at every step. Responsible Governance: Ethical standards and regulatory compliance are non-negotiable foundations of our operations. Commitment to Your Success & Sustainability. Your success drives ours. That's why we embed flexibility and responsiveness into our service model, adapting quickly to your requirements while maintaining operational excellence. Our 24/7 availability, combined with our deep understanding of regional markets and global energy dynamics, ensures that we are always ready to support your business, long term—with confidence, capability, and care.

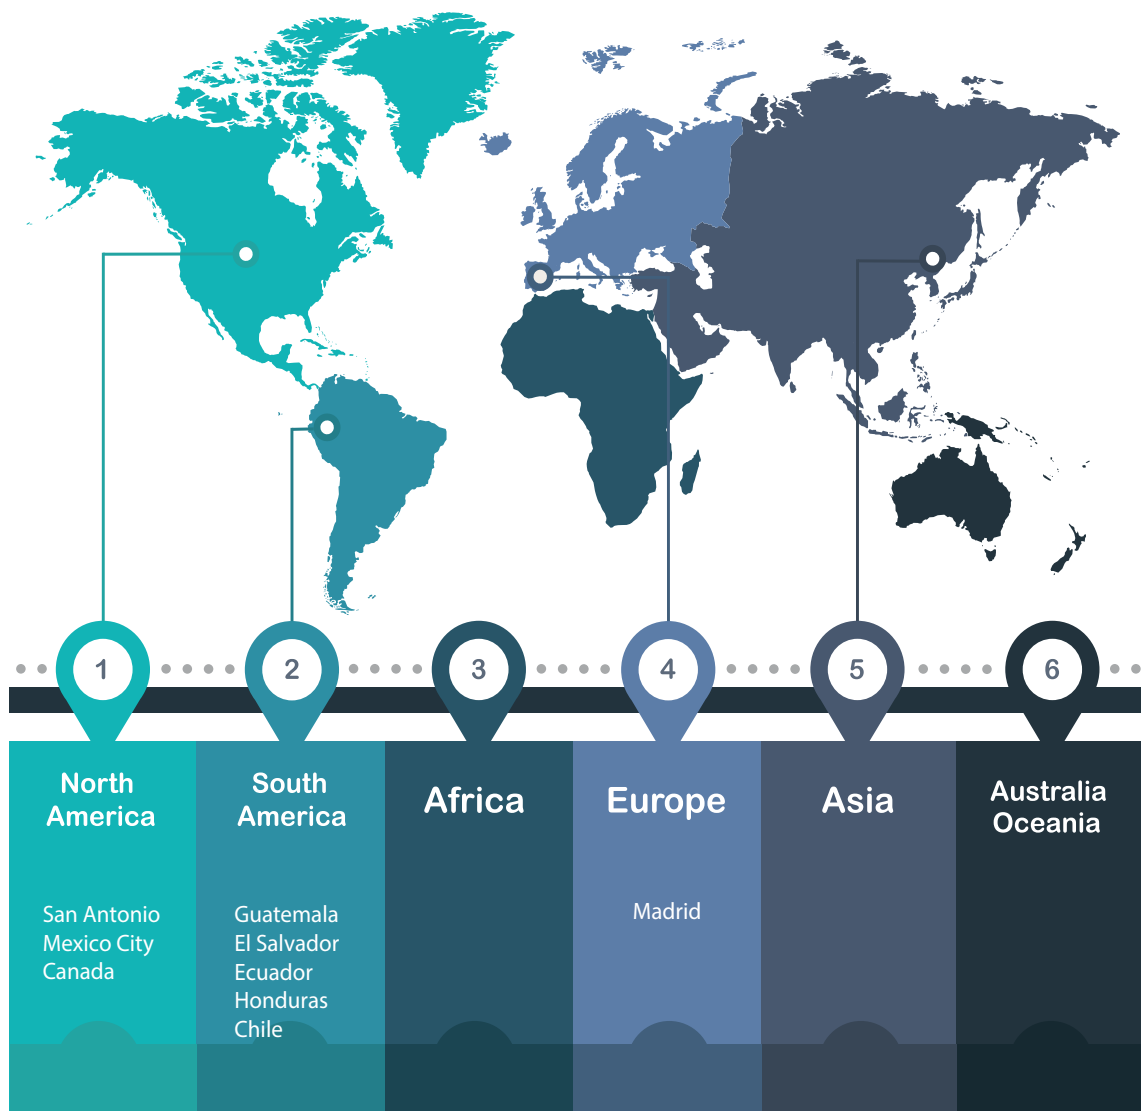

Company offices In the World

Global

IWC Group Inc. operates with a strong global presence through its strategically located offices and subsidiaries. Headquartered in San Antonio, Texas, the company also maintains a subsidiary office in Mexico City, along with an established presence in Guatemala, El Salvador, Honduras, Ecuador, Chile, Spain, Canada, and China. These regional offices enable IWC to provide tailored energy solutions with local expertise while maintaining seamless connectivity across international markets, ensuring reliability, efficiency,

We are Waiting you.

Strategic Distribution

IWC Forges Strategic Partnership with Hexagon Ragasco to Revolutionize LPG Distribution Across the Americas. IWC Group Inc., a leading American energy supplier with 15 years of proven expertise in cross-border petroleum trading and distribution, proudly announces a significant strategic alliance with Hexagon Ragasco, the world's leading manufacturer of composite LPG cylinders. This partnership positions IWC as a key distributor of Hexagon Ragasco's innovative and high-quality composite LPG cylinders, further solidifying IWC's commitment to delivering unparalleled service and premium, sustainable energy solutions across its expansive network.

Leveraging IWC's Robust Distribution Network

IWC Group Inc. specializes in the trading, marketing, and sale of petroleum products, supported by an integrated network of shipping, storage, and logistics infrastructure. With a broad network of intermodal transport, IWC ensures undistruptive deliveries across its markets. This robust operational framework, coupled with its expansive network across the Americas – serving the US, Mexico, Guatemala, El Salvador, Honduras, and Ecuador – makes IWC the ideal partner to bring Hexagon Ragasco's advanced LPG cylinders to a wider audience.

Introducing Hexagon Ragasco's Revolutionary Composite LPG Cylinders

Through this alliance, IWC will now distribute Hexagon Ragasco's state-of-the-art composite LPG cylinders. These products are synonymous with user-friendly LPG, with over 25 million units in use across nearly 100 countries worldwide. Key attributes that set these cylinders apart include:

- **Lighter Weight:** Approximately half the weight of traditional steel cylinders, allowing for easy and ergonomic handling and increased customer convenience. This also leads to better truck utilization and is HSE friendly, reducing logistics costs.
- **Enhanced Safety:** Boasting an unmatched safety record of 20+ years of experience and over 20 million units sold, Hexagon Ragasco cylinders are BLEVE-free* (Boiling Liquid Expanding Vapor Explosion-free), significantly reducing the risk of rupture and explosion in case of fire. They also perform reliably in a wide temperature range from -40 to +65 degrees Celsius and feature a patented Xstatic™ solution to eliminate static electricity risks.
- **Rust-Free & Durable:** Unlike steel, these cylinders do not deteriorate from rust, eliminating stains, reducing maintenance, and offering an increased lifetime. This commitment to durability supports environmental preservation by eliminating toxic residues from refurbishment.
- **Translucent Design:** A unique feature allowing for a visible gas level, which means users are less likely to run out of gas unexpectedly and eliminates the need for inaccurate gauges.

Commercial Value and a Brighter, Cleaner Future

This alliance offers significant commercial value for both IWC's partners and end-users:

- **Increased Profitability & Cost-Effectiveness:** IWC's commitment to "services at reasonable rates to increase profitability" is perfectly complemented by Hexagon Ragasco's cost-effective, time-saving, and durable products. The lightweight nature of the cylinders also reduces maintenance and logistics costs.
- **Strengthened Brand & Market Share:** Distributors can create an image of being a customer-centric brand by offering a safer, more user-friendly product. This helps attract new LPG users and retain the existing customer base, potentially allowing for premium pricing on refills.
- **Commitment to Sustainability:** IWC has a vision to "reinvigorate the petroleum sector with cleaner energy and sustainable initiatives". Hexagon Ragasco's cylinders, made with renewable hydroelectric power, designed for a 21+ year lifetime, and reducing carbon emissions during transport, directly support this vision.

IWC Group Inc. is excited to integrate these cutting-edge composite LPG cylinders into its diverse portfolio, which already includes premium fuel imports such as EN590, J1, Diesel D6, LPG Gas (Propane), and LNG. This partnership is a testament to our mission to earn lasting trust through transparency, operational excellence, and superior customer service, and our vision to be a consolidated leader in the market with an active presence in strategic locations. We are ready to work with you to build confidence one step at a time and help you succeed.
